STRONGSUIT®
STRENGTH AT HAND

After more than 20 years in the glove manufacturing business, we have seen many different design ideas and concepts. We have seen customers get it almost perfect, but stop short of a masterpiece. Thus, we decided to offer a new concept to the market. Perfect designs for every task, for multi uses, coming DIRECT from the factory at unbelievable prices. We want consumers to have the perfect glove for whatever they are doing, and be able to use the glove in multiple environments. We have the design expertise to finish the job that other companies fail to do and give customers the world's best gloves.

Second Skin

Natural “Second Skin” fit provides maximum tactility, keeping you protected while allowing you to handle your work

- Snug Fitting – it’s a true “Second Skin” fit and feel. Protects your hands, but you get the best fit and feel possible.
- TAC – Sense PU Palm gives you the grip and tactility to feel what you are working with and keep a firm grip
- IntekTouch technology -Touchscreen Compatible
- Neoprene Cuff
- Built-In TPR Hook & Loop Closure

Sizes S – 2XL

Black - 50100

Coyote- 50120

Sage - 50130

Second Skin LED

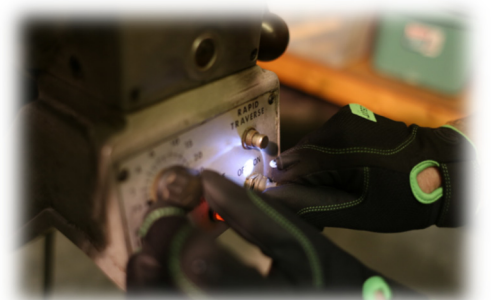

Dual function LED light with a replaceable battery provides “hands free” illumination – great for working in tight spots, automotive work, nighttime safety, etc

- Dual Function LED light – Solid or Strob – provides light for tight areas, nighttime, or safety
- Snug Fitting – it’s a true “Second Skin” fit and feel. Protects your hands, but you get the best fit and feel possible.
